

The Saracen® Electrically Heated Air Recirculated Oven

Oven Data – H255

Fuel	Electric
Direct/Indirect	Direct
Internal height	1500mm
Internal width	1000mm
Internal length	1000mm
External height	2200mm (maximum can be reduced)
External width	1400mm
External length	1200mm
Circulating fan duty	15m ³
Air changes per minute	10
Fan type	Double exit multivane centrifugal
Fan drive Motor	1.1kw
Heater rating	15kw
Insulation type/thickness	100mm RW5
Maximum working temperature	200°C
Temperature indicator controller	180°C
Process timer	0-60 mins
Vent to atmosphere	100mm
Doors	Single swing
Finish	White outside, aluzinc inside, red steelwork
